E. C. WALTON.

It is an ill wind that blows nobody good. Paderewski has been forced to cancel his engagements in this country and return to Europe, because of the severe shock he received when the engine of his private car was derailed in a trip through New York. The idiots who would have poured money into his coffers to hear him bang a piano in so-called music, and that would be the thing, you know, can keep their lucre for a better divorce.

THEY do things differently in the old world. For instance, at Warsaw they shoot down rioting strikers. In this country the injunction is used. All the same strikers here and everywhere should be treated to a volley of bullets when they become lawbreakers and interfere with the rights of others. The Chicago teamsters seem to have reached the limit.

WHETHER advertising pays or not, the Atlanta merchants evidently think it does. The dry goods firm of Chamberlain-Johnson-Du Bose Co., had 13 pages in each of the three dailies in that city Tuesday.

THE Louisville Times, the best afternoon paper in America, is now "free, white and 21." It celebrated its 21st birthday Monday. May the splendid publication live forever.

JUDGING from the prominent position the Adair News gives its personal column one would conclude that Brer Harris considers it his most important news.

The attorneys for Caleb Powers tendered to the Circuit Court at Georgetown Wednesday a petition asking that the case be removed to the Federal Court for the Eastern district of Kentucky. The ground on which the petition is based is the alleged impossibility of securing respect for the accused's constitutional rights in the State court. If you have a weak stomach or are troubled with indigestion, you will find these Tablets to be just what you need. For sale by Lyne Bros., Crab Orchard, Ky.

I offer for sale my mill and residence in McKinney, Ky. Mill has four capacity of 50 barrels and meal 160 bushels per day. Mill is well equipped with modern machinery in good repair. Has storage capacity of 5,000 bushels of wheat; also large corn bins and crib. Wagon scales operated from office, coal bins and ice house. All under roof. Never failing water in mill lot. Mill is within 100 feet of Cincinnati Southern R. R. track and has private siding. The feed and coal business in connection with mill pays well. No trouble to market all products from mill. Residence is a two-story, six room frame, with cistern on back porch. Milk house at back door cemented; all comparatively new. Large barn, buggy house in mill lot. On account of my failing eyesight and health generally, my physicians have advised me to quit the milling business. For further particulars call on or address Dr. Edw. Alcorn, Hustonville, Ky., or W. DIGNITY DARE

No. 1982, Vol. 5, A. S. H. R.

Malagony bay, black points, white only on left hind foot. 9 years old, 15 3/4 hands high, weighs 1,200 pounds, strong, flat bone, heavy mane and tail, good back, with long, crany, tapering neck, well set in light mounted shoulders, a saddle horse, always wears blue string in model rings, wonderful style in harness, a show horse sure. When one year old wore all honors in his class wherever shown; also the blue tie in sweepstakes harness rings at same age. When a 3-year-old he was shown 14 times and wore 12 blue strings; has never been defeated in fancy harness rings; has always been the victor in stallion stake ring, as a breeder, when shown with three or more of his get, for size, style and general conformation, and for all purposes. He is a saddle horse with five distinct gait, fast line acting racker, good in two walks and a nice looper, very positive in his trot under saddle and in harness, great all around action, as is required for an up-to-date sire of high priced sale horse for saddle or harness. He is a sure enough harness horse, graceful, stylish and fast; can show eighth in 14 1/2 seconds, a 2:25 gait, with but little handling; did this last fall one year ago, after serving 91 mares in the spring. He is possessed of wonderful nerve and speed enough to get a trotter for track use or gentlemen's roadsters; large, handsome, stylish, heavy and strong enough to get carriage horses with a kindly disposition for all purposes of a family horse. He is the horse to sire parkers, stylish, graceful, substance and docility. It has been given up by horsemen that he is one of the most uniform breeders in Kentucky. He types his colts after himself; has never sired a sorrel colt. The most profitable horse for the farmer and small breeder to produce is the horse which serves the widest range of purposes well. His colts are show colts; of the very highest type, blue string winners from the oldest to the youngest.

Parents—Sired by Chester Dare 10 N. S. H. R., he by Black Squirrel 58, he by Black Eagle 74, he by King William 67, he by Washington Denmark 61, he by Gaines' Denmark 61, he by race horse Denmark, F. MASTIC MIXED PAINT

Can't Be Touched

for painting houses. The reason's plain. Mastic is the purest, therefore the most durable and economical. There is a whole string of "other fellows" claiming "just as good as Mastic" but they don't prove it. Maybe they can't. The analysis of Mastic is published. It's made of pure lead, zinc and linseed oil—the most durable kind of paint—and its purity is therefore unquestioned.

As purity means durability, the splendid wearing qualities of Mastic have given it the title of "The Kind That Lasts," and this title is backed up by our absolute guarantee. Mastic is made by PEASLEE-GAULBERT CO., Inc. LOUISVILLE, KENTUCKY and we heartily recommend it to your trade.

TAKEN ISSUE.—R. L. Shannon, secretary of the State Board of Embalmers, writes that our Lancaster correspondent is incorrectly informed when she said that "out of 225 licensed embalmers in the State of Kentucky, only three have been honored by the State Board of Health in permitting them to prepare bodies, where death was caused by infectious diseases, for shipment." He says there are about 310 licensed embalmers in this State and any one holding one of these licenses can take charge of any dead body, dead of any disease and ship same, with the exception named in the laws of the Baggage Men's Union, small pox, bubonic plague, yellow fever, etc., and no one can ship these. The State Board of Health has nothing to do with the embalmers of this State as long as they comply with the State laws.

CHURCH MATTERS.

Rev. H. R. Mills was unable to preach at the Southern Methodist Church last Sunday on account of a severe throat trouble.—London Local.

Rev. H. M. Shouse, of Berea, has been called to the pastorate of the Middleburg Baptist church and Rev. Staley, of Kentucky University, Lexington, has been called to the pastorate of the Christian church at the same place.

The churches of Somerset have awakened to the necessity of enlarging their places of worship to accommodate the growth of congregations. The Presbyterian church is to be enlarged and Pastor Glass is called upon to devote his whole time and energies to the one congregation. The First Baptist church, with ever increasing congregations and 40 accessions during the year thus far, have plans under consideration for enlarging and beautifying their building. The Christian church is undergoing needed repairs and alterations. The Methodist churches are found insufficient for the ordinary services and they will have to build additional rooms.—Journal.

Bobbitt, Bible And Law.

CRAB ORCHARD, KY., MAY 3.—As I came home from Stanford a few days ago, by way of Maywood, I was importuned by a clever farmer, Abel Bryant, to go by his house for dinner and listen to his mother-in-law, Mrs. McFadden, talk scripture, and the Biblical feast as well as the edible banquet were most excellent. The latter cakes have not been excelled since our old cook, Hannah, left Dallas. Mrs. McFadden's memory is most remarkable. She quoted verses of scripture committed 79 years ago. She is now 86 years old. She can quote page after page, chapter after chapter. All ought to study the scripture when young. I am nearly through the New Testament and gone through Genesis, which means beginning. Exodus, which means going out, Leviticus, having reference to the priests, and nearly through Numbers; and in the New Testament I have gone through Matthew, Mark, Luke, John, The Acts, Romans, First and Second Corinthians, etc., and will probably get through the New Testament this year. I commenced this slow, tedious work when I was at Frankfort 20 years ago. I have committed about 18,000 verses. I believe there are only 31,186 verses in the Old and New Testaments. I wish I had commenced this work when a boy. I perhaps now could have completed the work.

I once asked Judge Saufley when he amassed such an inexhaustible reservoir of Biblical lore? He replied: "By a reluctant compulsory attendance upon the Sunday school when a boy." It is our mothers and the church and the Sunday schools that save our wayward boys, and upon whom rest our hopes of government, religion, society and heaven! Boys obey your mothers and study the Bible, and should there be no heaven hereafter, you can make a heaven on earth!

Benedict Arnold and Aaron Burr were traitors to their country because they had no religion. Blackstone says that no man can be a truly great lawyer without well-grounded principles of religion. But I am now wandering. I intended to write one page on Mrs. McFadden's remarkable memory.

Tuesday, May 9, the trial to which the people are looking with so much interest, will occur at Stanford. A report is in circulation that the public will be excluded. Can't do it. The fundamental law says all trials shall be speedy, open and public and in the face of the world. The people build the court houses, pay the officers and they have a right to attend and see how justice is administered there. They could exclude women and children, but there would be no impropriety in the most refined ladies being present when I address the jury for I can speak on any subject in such language as not to offend the most delicate, the most fastidious ear. It will be worth a pilgrimage to Mecca to hear me upon the subject and then hear Judge Saufley upon me. It will be the slaughter of the "Old Guard" at Waterloo, not by Adams' battery but by the flaming sword of Saufley's genius. My main object in appearing in the trial is to hear Saufley on the lawyer who precedes him. No one will enjoy the thunder of his eloquence and the fierce blaze of his pyrotechnic genius more than the man upon whom he will banquet.

I expect if I shall be so fortunate as to be like the race horse, in good plight for forensic battle, to make a speech that will elect me to Congress or defeat me for the Legislature. I shall lie down to argue a peace warrant Friday.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians couldn't help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which cured her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At G. L. Penny, Stanford, and Lyne Bros., Crab Orchard, drug stores, price 50c and \$1; guaranteed. Trial bottle free.

Essays Of Little Bobbie.

Society is where you go when you are invited with aim very often unless you have the due to spend. If you have the due it doant make no difference where you got it you can go to all the dances and dinners you want to but if you aint got the due you can only go to the dances they have on Saturday nites and that ain't society, it is only 50 cents for gents and ladies free and you bet society costs more than that.

If a man & his wife and thare children want to git into society they maik thare money and then move to sum other place where everyone aint on to them and they go rite into society. Sumtimes they go to church too, but the noar due they have the less they have to go to church. Pa and Ma doant go into society Pa says Ma can keep him broak easy enuff without that and I guess he is rite lookna 2 days ago the groser told Pa we cudn't have any moar stuff unless we seteled up our bil at his store and so Pa seteled up. Then he came home and sed to Ma well you are keepng my nose to the grind stonn all rite and Ma sed well I didn't marry you to set down and look at you so go out and maik some chink. The recent offer of five million dollars for the site of the little Dutch Church in Austin Friars, of Throgmorton street, has again called public attention to the almost fabulous value of land in the City of London. This little church can accommodate only some two hundred people, yet the value of the site is so great that not only were the trustees offered this enormous sum for it, but the offer was accompanied by a promise to build another church in the suburbs. One thousand five hundred pounds a year is no uncommon rent for a small ground-floor in the heart of the city. It is said that a million dollars has only recently been refused for the site of the Apothecaries' Hall in Water Lane, near Ludgate Hill Station much less than an acre. The company say they have no wish to sell. Some day there will be a new station at Ludgate Hill, and they may obtain a still larger price under compulsory sale.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death. "As a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at G. L. Penny, Stanford, and Lyne Bros., Crab Orchard, drug stores; price 50c.

CONSUMPTION'S WARNING

Inside facts soon become evident in outside symptoms.—Dr. G. G. GREEN.

The aid of scientific investigations is not needed to determine whether your lungs are affected. The first symptoms can be readily noted by anyone of average intelligence.

There is no disease known that gives so many plain warnings of its approach as consumption, and no serious disease that can be so quickly reached and checked, if the medicine used is Dr. Boschee's German Syrup, which is made to cure consumption.

It is in the early stages that German Syrup should be taken, when warnings are given in the cough that won't quit, the congestion of the bronchial tubes and the gradual weakening of the lungs, accompanied by frequent expectoration. But no matter how deep-seated your cough, even if dread consumption has already attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble.
